GLOBAL PLAYER

ABSOLUT LIGHTING sets the mood for lighting

...and does so all over the world! ABSOLUT LIGHTING, alongside RADIUS DESIGN the second label from the creative workshop in Brühl in North Rhine-Westphalia, has launched an interesting, and surprising, luminaire. It casts magical shadow shows onto walls and ceilings and in so doing sends our imagination on a wonderful journey.

With its fascinating interplay of light and shadow, SHINING by designer Peter Buning invites us to take a dream journey. Brussels and Bombay, Paris, Milan, Tokyo, Versailles or Washington: Where shall we go? The different patterns on the luminaire's glass lampshade generate the seven motifs, which are reflected onto the wall or ceiling when the light is on.

The patterns transform large areas into wonderful pictures. And, owing to their graphic feel, call to mind magical metropolises in Europe, Asia and America. A most playfully, they immerse every room in a warm, sensual atmosphere. Thus, people who love extraordinary light have a choice between shadow shows with Brussels lace or the opulent Indian pattern "Bombay". Or perhaps lovely old Versailles frescoes would be better? Not a problem. And those who want to make whole walls or ceilings radiate southern sun can choose "Milan", which does this in an impressive way.

Glass and steel are the cool materials with which Shining scores points, yet as soon as its light hits the wall or ceiling, it becomes romantic. ABSOLUT LIGHTING has yet again demonstrated a feel for trends. We encounter pattern upon pattern in fashion and design which make our world more attractive and more interesting. And not to forget: SHINING is a winner! It received a "nachlux" award, the European innovation competition for lighting.
